WELCOME TO OUR JOURNEY BETWEEN GLASS AND LIFE

our lives to it. It takes our time, power, blood, sweat and tears. But at the same time the glass undoubtedly gives us feeling of celebration, genuine joy and indescribable happiness.

And we sincerely wish you to find this joy and experience in our works for yourself!

Anda Munkevica

Valentins Elsts

We wish to open the space that is closed,
To flow the light, wind and atmosphere.
To discover inner structure of glass-
Like relationship between human beings.

The glass to us has been like a life partner from an early age. We have a very own and unique relationship. The more we engage with glass, the more we discover and wonder about. This is constant, without borders in any idea or technique, never-ending interest.

Why glass? It can be so beautiful, shiny, powerful, delicate, solid, hard, heavy and magnificent material of light. The love for material, in this case glass, unites people from all over the world in various design disciplines what combine and complement each other. This is material of 21st century that has long ago stepped out of usual applied art frames. We observe it everywhere in solutions of interior design, philosophical reflections of art sculptures and majestic architecture.

We work, live and think in this material. Glass is simultaneously powerful like fire and fragile as a snowflake. It never forgives any single error. We devote

AMstudija 

OUR MISSION

CAREFULLY HANDCRAFTED GLASS DESIGN

“AM studio” was founded in 2002 aiming at quality, creativity, innovative glass and mirror products, honesty, superior service, and customer loyalty, and these principles still guide our company today. With extensive experience and knowledge in the glass field, we take pride in each architectural, design and art project we are involved in.

NO CHALLENGE IS TOO GREAT

Our mission is to convert bold glass design ideas into functional elements and structures. “AM studio” is able to provide all spectrum of services, from designing, sketching, creation of unique forms by glass artists, to fabrication and installation of ready-made product. Our experienced technicians, constructors and service team have earned the trust and confidence of our clients over the years with their vast knowledge and hard work.

ALWAYS EVOLVING

You don't stay in business without evolving and innovating. “AM studio” is not just a business but a space for innovation, inspiration, companionship, solution providing products from a team of likeminded people, motivated by ideals of good to great. That's how we continue to create new and exciting work, solve challenges for our clients, successfully implementing delicate artistic glass solutions into the world of architecture and design.

“AM studio” team

ARCHITECTURAL GLASS

“AM studio” offers architectural glass materials, trusted by leading architects, designers and contractors in the Baltic States and beyond. Development and production of architectural glass denotes an extraordinary responsibility to imagination, excellence and organization. “AM studio” team of skilled engineers,

designers and glass artists exemplifies all three qualities with unmatched workmanship. With almost 20 years of experience in glass processing, we can ensure that our clients will be getting unique solutions and expert advice at every step of the project.

With decades of experience and creation of mirrors, showers and glass washbasins, we provide innovative products for your bathroom project.

Since every glass shower wall and washbasin are developed and handcrafted in-house, custom sizes, shapes, and colors are easily available. Variations in shape and color patterns are what make “AM studio” handcrafted bathroom products distinct and unique.

Laminated glass: safe elegance

“AM studio” offers production of technologically advanced laminated glass products to meet the demanding standards of the architecture and design. Ideal for exterior and interior applications, including facades, doors, balustrades, railings, office partitions, decorative surfaces etc. Natural materials like wood and textiles, as well as different types of wire mesh and metallics, films and more can be used to create modern and innovative laminated glass products.

Glass solutions for pools, spas and wet areas

Prevent interior from becoming a sea of straight lines and circular forms by introducing an glass elements with an interesting shape, playful colores, unique textures and various kinds of built-in lighting that will make the glass glow from the inside.

Colorful Creations in Stained Glass

Stained glass brings light, color and story into a building at the same time.

Featuring an array of colors and intricate designs, stained glass artistry is a type of art that is captivating to the eye. Both an art and a craft, the creation of these illuminating decorations requires artistic abilities as well as the engineering skills for assembling the pieces.

Stained glass has truly contributed much to the different aspects of design, especially in architecture. It's one way to translate a creative idea onto glass and improve the overall aesthetic of any place would it be private residences, commercial establishment or public buildings.

“AM studio” offers all aspects of the craft of stained glass in three main techniques – classic with lead profile, with brass profile and Tiffany, including development of individual design, sketching, production and installation.

Artistic sandblasting

Sandblasting glasswork has evolved as a contemporary art form used to manipulate glass surfaces to form creative patterns and designs. Starting with your idea, "AM studio" artists will create a personalized design to match your specifications, whether it is a simple pattern on glass or dramatic deep carvings. In the skilled hands of our artisans doors, windows, decorative panels or partitions can become a work of art, expressing your taste and adding a unique element to any home or workplace.

Custom-made glass awards

In our case, the creation of awards can be equated to the creation of small-sized sculptures, each of which requires special attention, knowledge of the material and the ability to transfer the client's idea or concept to a glass masterpiece that will become a proud treasure, symbolizing monumental success and achievement.

ART GLASS

Glass artworks created by Anda Munkevica, the main artist/designer of the studio, are represented in art museums all over the world – Japan, USA, Australia, Belgium, Russia, Germany, China, Ukraine, etc. With her masterpieces, Anda took part in a large number of

international competitions and group exhibitions held on different continents. During her activity, more than 10 private exhibitions in various countries were organized.

Endless speeches about art destroys it.
Just feel it, love it and create it.

PROCESS

We develop and produce our glass in our own factory in Latvia. Take an exclusive look inside our day-to-day sophisticated manufacturing process to see how handcrafted and unique glass products are made. Central success factor is our highly professional and motivated team, which works every day with full

commitment and passion for the implementation of projects entrusted to us. Our support in all phases of the project distinguishes us from our competitors and makes it possible to best contribute our knowledge and many years of experience in projects where the main place is given to art glass solutions.

We are inspired by nature and prospect of encapsulating the fragile reality in glass. Employing innovative techniques and ongoing experiment, we create unique one-off art pieces, which add aesthetic and depth to any design environments.
